We are still having problems with the gate lock. Another one has disappeared and has had to be replaced with a new one. Several suggestions were made as to how to make the lock irremovable from the chain.

The upcoming "Fun Fly" was discussed. All those flying were advised to check out their planes that they will be using to make sure that they are in good working order. Art Vail went over the details for setting up for the event and stressed the need for volunteers to help with all aspects. It was decided that the work tables be moved to between the two fences for plane start ups as a matter of safety and some areas be roped off to keep spectators a safe distance away from running engines.

There were no show and tells.
